LGBTQ+ Competition

→ Honorable Mention

We would like to give an honorable mention to a film that with its visually striking camera work and captivating characters impressed us and took us on a journey that was new and unexpected. This film portrays the difficulties of conforming to the norms set by society and the importance of found family in a place where living out one's

sexuality is still a taboo today. Our honorable mention goes to MONEYBOYS, due to the film being a close contender for the winning entry.
